Bagged  
**Southwest Breeder Cube**  
Formerly 1300

For beef cattle on pasture.

**FEEDING DIRECTIONS**

Feed 2 to 6 pounds per head per day to range cattle depending on age, stage of production cycle, sex, and available forage.

Provide fresh clean water at all times. Keep feed fresh in cool, dry storage. Do not use feed that is old, molded or insect contaminated.

Calcium (Ca), max...2.0%	Phosphorus (P), min. ...0.6%

---

**Features & Benefits**

- Feature:** Natural protein to balance a cow's protein requirements  
**Benefit:** Natural protein is the most efficient method of supplementing native range.
- Feature:** Contains 0.6% phosphorus  
**Benefit:** Phosphorus is needed to metabolize proteins, fats, and carbohydrates for release of productive energy. It is needed in bone and teeth formation and maintenance, milk secretion and muscle tissue formation.
- Feature:** Economical Cost  
**Benefit:** Best used when large amounts of feed are needed. Can be used as a call-up cube.
